

Industrial Assessment Center

Office of Energy Efficiency and Renewable Energy
U.S. Department of Energy

L.C. Smith College of Engineering and Computer Science
Syracuse University

What is the IAC?

Supported by a grant from the US Department of Energy, SU-IAC is a workforce development program designed to expose the next generation of engineers to energy efficiency and renewable energy. Since 2001, more than 220 manufacturers in New York have benefitted from the no-cost energy assessment services provided by the SU-IAC.

"We found the ... study to be thorough, helpful & require little of our people's time. In addition, the cost reduction suggestions were affordable & significant."

Features of our service

1. No-cost energy assessments
2. Long history of energy savings
3. Proven increases in profitability
4. Proven increases in competitiveness
5. Minimal time commitment
6. Non-regulatory
7. No obligation
8. Confidential

Save energy, save \$\$\$

The SU-IAC expects to assess 25 manufacturing facilities this upcoming year which is expected to yield record breaking savings.

\$1.9 million

Anticipated total annual savings for manufacturing facilities across New York State in 2013

To date, the Syracuse University Industrial Assessment Center has saved companies *more than,*

52,633,006 kWh electricity

1,065,701 MMBtu natural gas

101,036 MMBtu other energy

Average \$ savings realized by each SU-IAC client facility (by fiscal year)
